BE MORE THAN A SPONSOR

The SETAC North America Student Advisory Council (NASAC) is excited to announce the 7th Young Environmental Scientists (YES) Meeting! The meeting will be March 25-29, 2018 at the University of Wisconsin-Madison. The YES meeting is a for-students, by-students SETAC conference focused on student professional development and networking opportunities. In addition to our scientific program and short courses, we will have an opening workshop on communicating science to various audiences beyond other scientists, career talks by recent graduates working within academia, government, and industry, and a special evening community science night open to the general public!

This brochure provides information about the 7th YES meeting and our sponsorship opportunities for your organization. Your support would directly enable environmental toxicology and chemistry students to attend a selection of engaging short courses, network with their peers and future colleagues, and develop professional skills crucial for becoming productive members of the scientific community. The YES meetings have been an incredible success in the past, and we aim to continue this legacy for the second time in North America.

We hope to hear back from you and thank you for your support of this fantastic SETAC event!

Sara L Nelson
Chair of the Meeting Program Committee

Elizabeth L Miller
Chair of the Local Organizing Committee
Fundraising & Advertising Coordinator
NASAC Midwest Representative

PARTNERSHIP OPPORTUNITIES

YES 2018

STAND UP FOR SCIENCE

YES2018.SETAC.ORG

7th Young Environmental Scientists Meeting

MARCH 25-29
MADISON, WI
USA
ABOUT THE YES MEETING

What is the SETAC Young Environmental Scientists Meeting?
- SETAC meeting tailored to specific student needs
- No registration fees
- All participants give a platform or poster presentation in 11 different sessions
- Networking with peers and future collaborators in a relaxed, non-intimidating setting
- Speakers and panel discussion focused on professional development and communication
- Professional training courses: Learn new lab methods and improve soft skills
- All participants eligible to apply for travel grants

YES 2018

The YES Meeting in 2018 will be the second in North America. We expect approximately 150 students, including international participants. The scientific program for this meeting will include the following topics:
- Chemistry and Ecotoxicology of lakes, rivers, and streams
- Marine Ecotoxicology and Chemistry
- Terrestrial Ecotoxicology and Chemistry
- Method Development for Environmental Analytical Chemistry
- Molecular Toxicology and -Omics Approaches
- Nanomaterials in the Environment
- Environmental Modeling and Risk Assessment
- Public Health and Epidemiology

In addition to these sessions, the fourth day of the conference will be short courses. Each attendee will get to attend one laboratory and sampling methods and one “soft skills” course taught by experts from campus and the Madison community.

PARTNERSHIP OPTIONS

- Small logo on shirt
- Partner logo on website

BRONZE ($500-999 USD)
- Small advertisement in program book
- Small logo on shirt
- Partner logo on website

Other Means of Support

In addition to pre-defined partnership options and short course support, we appreciate other means of non-material support. For example:
- Transportation (airlines, buses, taxis)
- Catering food
- Printing costs
- University support for student participation

We hope you are interested in becoming our partner! If you have any questions or opportunities, please contact us at: studentsofsetac@gmail.com
